## A collage of black and white photographs capturing various moments of childhood. The images are arranged in an overlapping, non-linear fashion. Key scenes include: children climbing and playing with large tires; a group of children sitting on a wooden bench; a child in a costume holding a large sack; children playing a game of tag or hide-and-seek in a grassy area; a child swinging on a swing set; a group of children sitting on the ground, possibly during a picnic or assembly; and several individual portraits of smiling children. The overall tone is joyful and nostalgic, representing a collection of memories from a specific time and place.
